ABOUT US

Ubuntu Community Farm (UCF) is a ½ acre market garden and community medicinal garden in Toronto. We sell ecologically grown produce at our farm and to our Community Supported Agriculture (CSA) members. We provide opportunities to reconnect with the land and learn about our plant relatives, and we're passionate about building stronger communities and a thriving local food system.

As this is a volunteer position, experience in farming is not necessary- training and education will be provided as required. For safety reasons, you must wear appropriate clothing and shoes to do farm work. We will provide work gloves, tools, and refreshments.
